

I would like the ability to pick my OWN isp, instead of just having a handfull of isp's to pick from. Road Runner (my current isp, which is part of Time Warner) is EXCELLENT at providing the bandwidth, but their servers are something I can do without. They currently DO NOT have a provission to buy "JUST THE PIPE" at a reduced price. I've been with them sine the "Early Bird" days in Austin, TX when we had to pay to get Road Runner installed. Now they frequently run specials for free or \$10 installation, and \$29.95 per month for the first six months, which is \$20 less than what I pay, as a long time customer.
